3. Set up watch with APP

3.1 Registration and Binding watch

First, to enter Email address as the account name, then fill into the verification code as photo shows, the password set with 6-12 characters, numbers and letters all supported. And make sure you have **chosen the right server area which your country belongs to.**

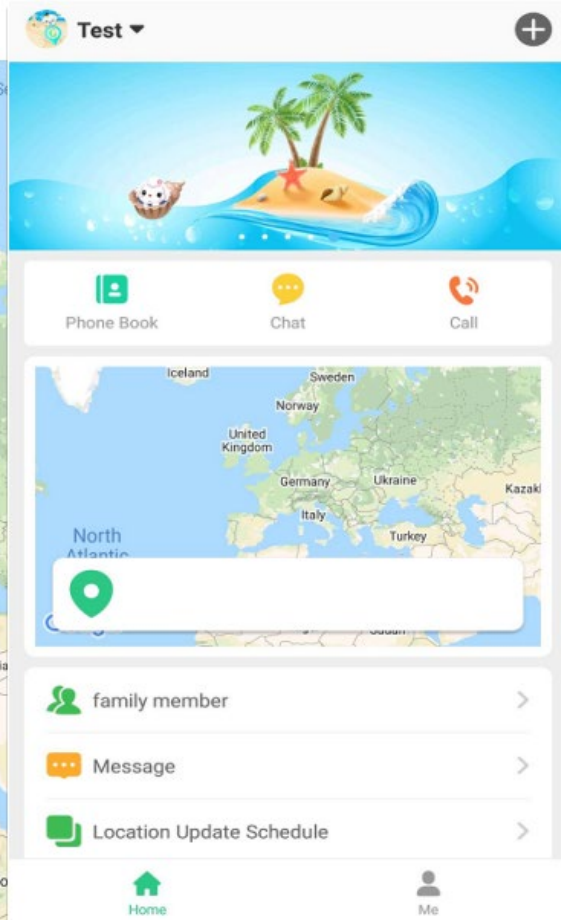

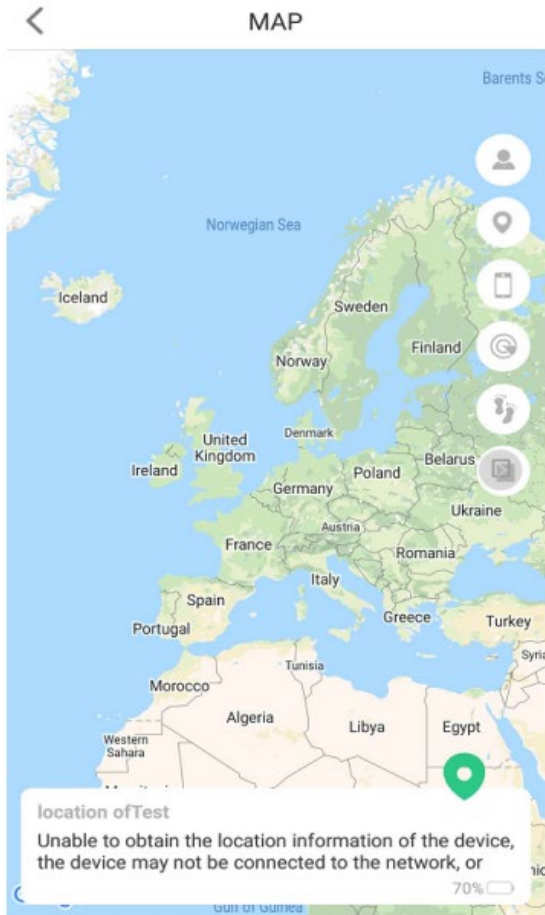

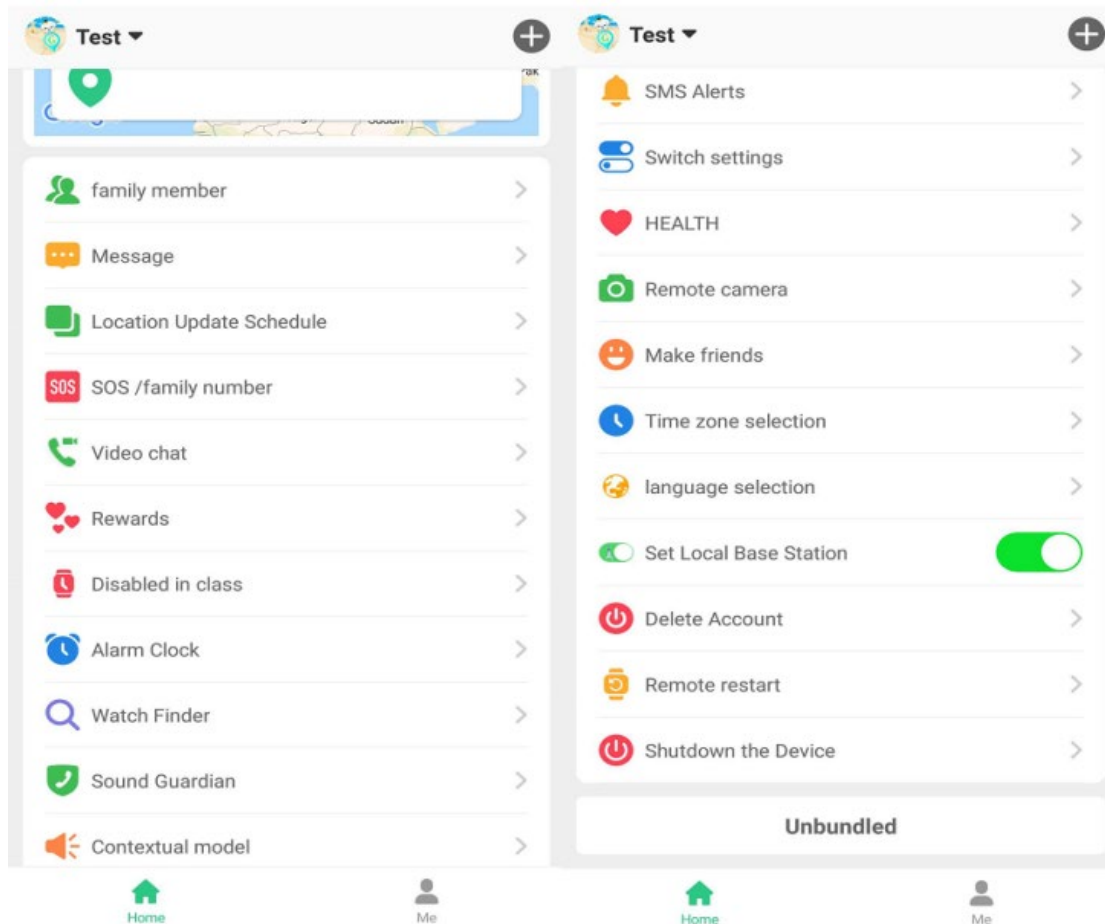

Important: The first family member who bind the watch will be the admin account. If the second family member also want to bind watch to check kids' status, then he/she can set up a new account but get authorization from admin account.

Notice: if you are the admin account but still get alerts of waiting for authorization then the reset will be required. Please contact the seller for support.

3.2 Quick review of APP main function

(1) Chat: Hold the “start recording” button to record voice message and Release to send. The longest voice message can be 15 seconds. Meanwhile, you can also send short message to the watch with limiting characters (< 30). Like “I am here”.

(2) Location: Check the position of the watch in real time. Each round of positioning time is 3 minutes when locate function is triggered. After that, device will back to the default working mode. The GPS/LBS/WIFI location mode will be displayed in the map and each mode works depending on the real-time signal of watch. Normally, When watches are inside building, LBS location will be

shown but location accuracy is not good.

(3)GEO fence: The minimum circle need to over 200 meters, with maximum THREE safety zone can be set. When users go in and out of the fence, there will has alarm information send to the guardian numbers. Note: fence alarm information only when the watch GPS is triggered, base station (LBS)positioning fence has no alarm information.

(3)Historical Route: This function is used to check the history route of kids in different period. The location data can be saved up to 90 days.

(4)Settings for watches

a. SOS number: Maximum 3 phone numbers can be saved. Watch will call the SOS numbers automatically by pressing the physical SOS button on watch for 3 seconds, once the emergency call is triggered, alert message will send to APP and the three SOS phone numbers will be called one after another until the call is answered.

b. Sound guardian: Enter your phone numbers and confirmed, then the watch will call the number automatically, after you pick up, then you can hear the surroundings without kids notice.

c. Data Upload intervals: three working modes to choose, the default working mode is every 10 minutes; power saving mode to update location is every 1 hour, and the real-time positioning mode

is 1 minute, which is most battery consumption.

d. Ring mode: There has Vibration, Ring and Silent model to choose from. But some models do not have built-in Vibration in the watch, only can choose between silent and ring mode.

e. Do Not Disturb: Three time periods can be set. All incoming calls will be blocked under DND mode, and the home screen will be locked. This function also known as Class mode only works from Monday to Friday.

f. SMS alerts: You can enable low power and SOS alerts by SMS notification. When the battery is less than 20% and SOS Call made, alarm messages will send to the your phone, meanwhile, there will have also APP notification.

g. Phone book: Maximum 15 contacts can be added. Including SOS numbers, all these number can call into watch and kids can find and call these contacts from the watch phone book.

h. Make friends: to have 2 working watches, Start “make friend” in both watches, then “Knock” gently together the watches screen, If the pairing is successful you will hear a sound, and the watches will show “paired”.

i. Watch finder: Useful function when you can not find watch., once the function is enabled, watch will ring.

j. Remote shutdown: When watch connects with APP and using

internet, watch cannot be turned off by pressing button, you can remote shutdown watch from APP.

(5) More function. On the home page

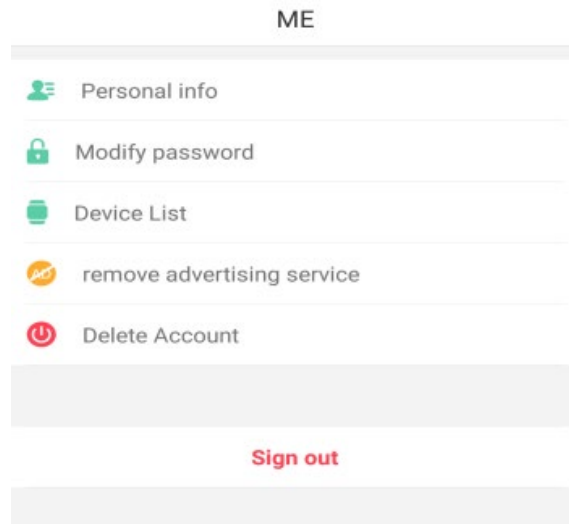

- a. **Schedule:** Setting course details for class schedule.
- b. **Remote Camera:** To remotely take photo from watch
- c. **Health:** To start “Step” in the watch, you have to open the switch in “walk”. Also you can check, amount of exercise, distance and sleep monitor.
- d. **Video call.** To start video call with watch
- e. **Alarm Clock & Rewards :** Maximum 3 alarms can can be set up.

And rewards can be send by adding up the numbers.
